

Better Queensway

Welcome

Welcome to the first public consultation on the regeneration of the Queensway Estate. This is your opportunity to have your say on what matters to you as a community.

The key outcomes that the Partners are expecting from the regeneration include an increase on the number of affordable homes, an attractive housing offer to both returning and new affordable tenants, addressing the Queensway highway, high quality public realm and delivery of long term social value to contribute to Southend-on-Sea Borough Council's 2050 vision.

MEET THE TEAM

Swan Housing Association and Southend-on-Sea Borough Council are working in partnership to deliver a Better Queensway with support from South Essex Homes.

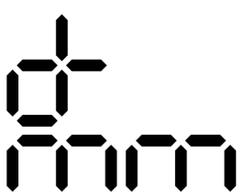

Southend-On-Sea Borough Council (SBC)

We are a unitary authority delivering over 400 services across Southend-on-Sea, the home of the longest pleasure pier in the world and the burial site of the Saxon Prittlewell Prince. We are home to more than 180,000 people and 7,000 businesses, with millions more visiting the popular seaside resort.

The Better Queensway regeneration is a vital project because as well as providing much needed additional housing and investment, it will improve the gateway into central Southend for our residents, businesses and visitors. We are looking forward to working with our partners, Swan Housing Association and South Essex Homes, to make this regeneration a reality.

LDĀ DESIGN

somewhere to feel at home

Swan Housing Association

This year we celebrate our 25th Anniversary.

We have a history of regeneration, providing high quality affordable homes to rent and buy across Essex and East London. We currently manage over 11,000 homes.

We have the experience and commitment needed to transform the Queensway for the long term benefit of residents, the wider community and the Borough.

South Essex Homes

South Essex Homes was formed in 2005. As the Arm's Length Management Organisation for Southend-on-Sea Borough Council, ensuring that the vast majority of Council housing in Southend-on-Sea meets the Decent Homes Standard, South Essex Homes continues to evolve and is working hard to continue to improve our services and increase satisfaction and residents are very much at the heart of our business.
